

5 years of oemof development

@uvchik @gplssm @c-moeller

10th oemof dev meeting

December 4, 2019

What do you know about oemof's history?

- ▶ Build groups of 2-4 members
- ▶ Take A,B,C,D - sheets for each group
- ▶ Close your notebook and put your smartphone in your bag - no cheating!

What happened on December 4th 2014?

15/05/2014 14:16

What happened on December 4th 2014?

- ▶ A: The initial commit of the oemof repository was created
- ▶ B: The oemof foundation meeting was held
- ▶ C: A presentation was held about collaborative working in the field of energy modelling.
- ▶ D: The decision was taken to found oemof

What happened on December 4th 2014?

- ▶ A: The initial commit of the oemof repository was created
- ▶ B: The oemof foundation meeting was held
- ▶ C: **A presentation was held about collaborative working in the field of energy modelling.**
- ▶ D: The decision was taken to found oemof

Pahesmf

Vision einer offenen Modellierungsbibliothek

Uwe Krien, Guido Pleßmann
ZNES-RLI-Workshop
Flensburg, 4. Dezember 2014

Which model did NOT inspire oemof

- ▶ A: renpass
- ▶ B: NooDEI
- ▶ C: MR Esom
- ▶ D: reegis_hp

Which model did NOT inspire oemof

- ▶ A: renpass
- ▶ B: **NooDEI**
- ▶ C: MR Esom
- ▶ D: reegis_hp

- **Die Baukastenidee**
- **Dictionaries für Schnittstellen**
- **Dokumentation**
- **Zusammenarbeit**

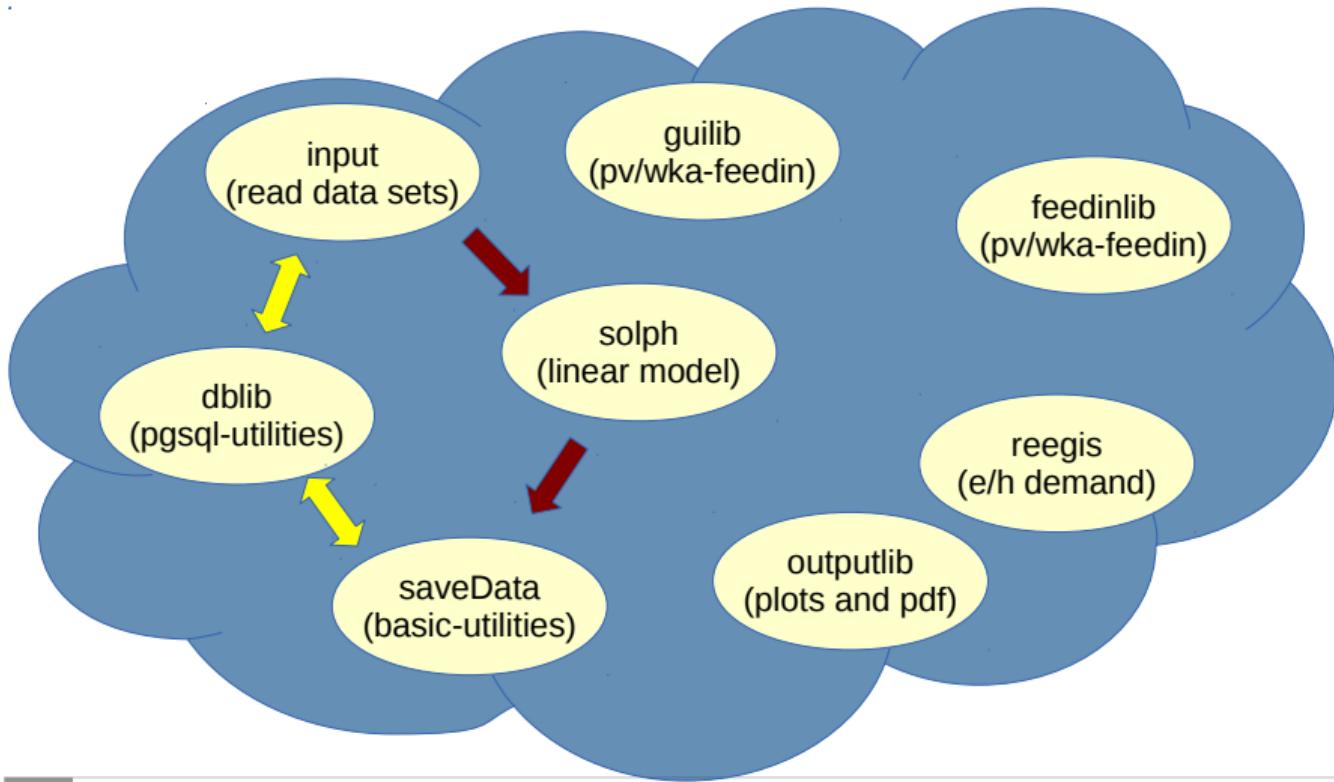

Vorarbeit: Entwicklung und Ausgestaltung von pahesmf als Community-Projekt für Energiemodelle

Vorschlag: Umgestaltung zu einem gemeinsamen Projekt von RLI und ZNES als Testphase für institutsübergreifendes, kollaboratives Arbeiten

Idee: Weiterentwicklung und später Ausweitung auf weitere Institute und Gruppen

Die Baukastenidee

- Dictionaries in Python sind Datenbäume um komplexe Datenstrukturen abzulegen und an Funktionen zu übergeben
 - Dictionaries werden real nicht übergeben, sondern nur Zeiger gesetzt.
 - Äste können hinzuwachsen und abgesägt werden
 - Grundlegende Ast-Struktur sollte abgesprochen sein, Orientierung an vorhandenen Modulen, die bereits entsprechende Äste haben (z.B. Parameter, Zeitreihen, Ergebnisse....)
 - Benötigtes Dictionary muss gut dokumentiert sein, um Nutzbarkeit des Moduls zu erhöhen bzw. möglich zu machen

- Dezentrale Dokumentationsstruktur im restructuredText (rst)
- Doc-Strings werden mit rst erstellt und kompiliert in html, pdf...
- rst-Dateien sind git-fähig, kompilierte Version wird ausgeschlossen
- Schwarmarbeit: Alle sind für „ihre“ Docstrings verantwortlich, Fehler in zentralen Dokumenten können von allen verbessert werden
- Kompilierte Dokumente (pdf) oder html-Seiten werden zyklisch erstellt

- Transparente Entwicklungsplanung (Roadmap, Gantt)
- Wünsche, Verbesserungen, Fehlerreports über Ticketsystem
- Nutzung des Wikis für die Entwicklerdokumentation
- *Python-packages* in *git-submodules* mit pahesmf als haupt-repository
- Verantwortliche für *packages* koordinieren Planung und Rechte

- Möglichkeit der gemeinsamen Entwicklung (z.B. gemeinsam an feedinlib) oder parallelen Entwicklung (z.B. nicht lineares Optimierungsmodell)
- Wichtig: Möglichst kleinteilig, gut dokumentiert und auf Basis gemeinsamer Schnittstellen.
- OpenSource-Variante sollte immer möglich sein, z.B. durch Austausch von Gurobi mit CBC

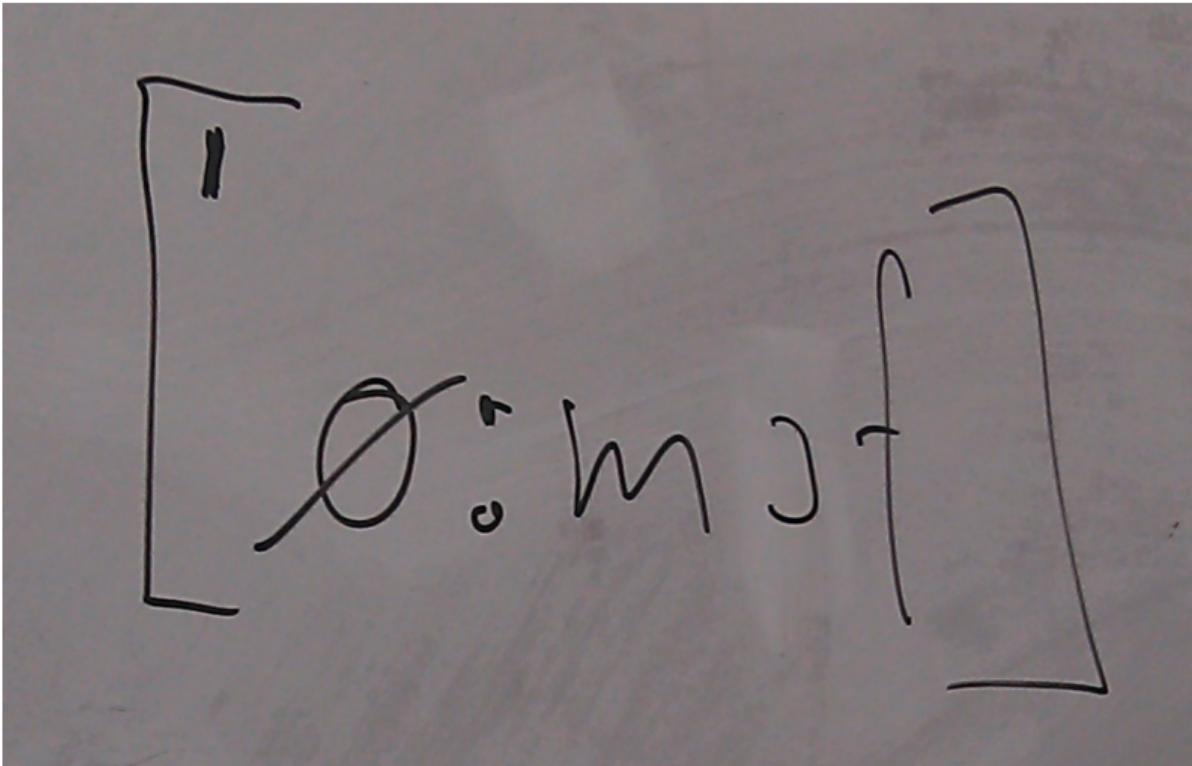

- Entscheidung über gemeinsames Projekt gemeinsam treffen
- Schnittstellen und Programmiergrundlagen definieren
- Struktur der Zusammenarbeit und Verantwortlichkeiten festlegen.

**Vielen Dank fürs Zuhören.
Ich freu mich auf Fragen und
Diskussion.**

We drove to Flensburg with *pahesmf* and returned with

On the way towards v0.0.1

What was the first package published?

- ▶ A: feedinlib
- ▶ B: outputlib
- ▶ C: solph
- ▶ D: oemof

What was the first package published?

- ▶ A: **feedinlib**
- ▶ B: outputlib
- ▶ C: solph
- ▶ D: oemof

Extra: What was the first version number and why?

Work on the first oemof (solph) release

What was the name of the first release package?

- ▶ A: oemof_core
- ▶ B: oemof_network
- ▶ C: oemof_solph
- ▶ D: oemof_base

What was the name of the first release package?

- ▶ A: oemof_core
- ▶ B: oemof_network
- ▶ C: oemof_solph
- ▶ D: **oemof_base**

Release party (guys)

Release party (girls)

The great refactoring: v0.1.0

What was NOT released in autumn 2016

- ▶ A: oemof v0.1.0
- ▶ B: feedinlib v0.0.11
- ▶ C: windpowerlib v0.0.1
- ▶ D: demandlib v0.1.0

What was NOT released in autumn 2016

- ▶ A: oemof v0.1.0
- ▶ B: feedinlib v0.0.11
- ▶ C: **windpowerlib v0.0.1** -> August 2016 :-)
- ▶ D: demandlib v0.1.0

What was totally new in v0.1.0?

- ▶ A: Investment mode
- ▶ B: Additional constraints
- ▶ C: Flow class
- ▶ D: EnergySystem class

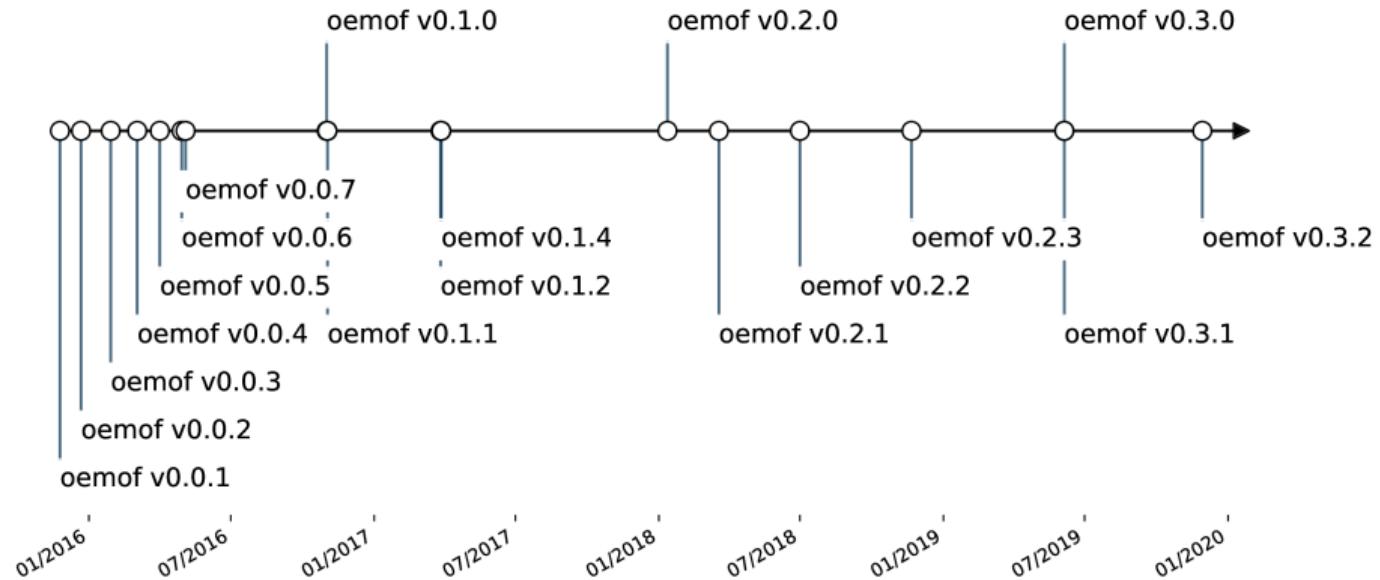

What was totally new in v0.1.0?

- ▶ A: Investment mode
- ▶ B: Additional constraints
- ▶ C: **Flow class**
- ▶ D: EnergySystem class

Development post v0.1.0 focused on
code quality and new features

Which oemof release took the longest?

- ▶ A: v0.0.1
- ▶ B: v0.2.0
- ▶ C: v0.5.2
- ▶ D: v0.1.0

Extra point: Which package came up next?

TESPy

When was the initial commit of TESPy?

- ▶ A: 06/2016
- ▶ B: 12/2016
- ▶ C: 06/2017
- ▶ D: 12/2017

When was the initial commit of TESPy?

- ▶ A: 06/2016
- ▶ B: 12/2016
- ▶ C: 06/2017
- ▶ D: **12/2017**

The first user meeting in May 2017

How many books exist about oemof?

- ▶ A: No real book
- ▶ B: A chaotic collection of concept papers published as a book
- ▶ C: A Springer book but nobody knows how this could ever pass the review
- ▶ D: An english book but in Latin it would have been at least funny

How many books exist about oemof?

- ▶ A: No real book
- ▶ B: A chaotic collection of concept papers published as a book
- ▶ C: A Springer book but nobody knows how this could ever pass the review
- ▶ D: An english book but in Latin it would have been at least funny

The meetings from 12/2017 to 05/2019

Some statistics from the git repository

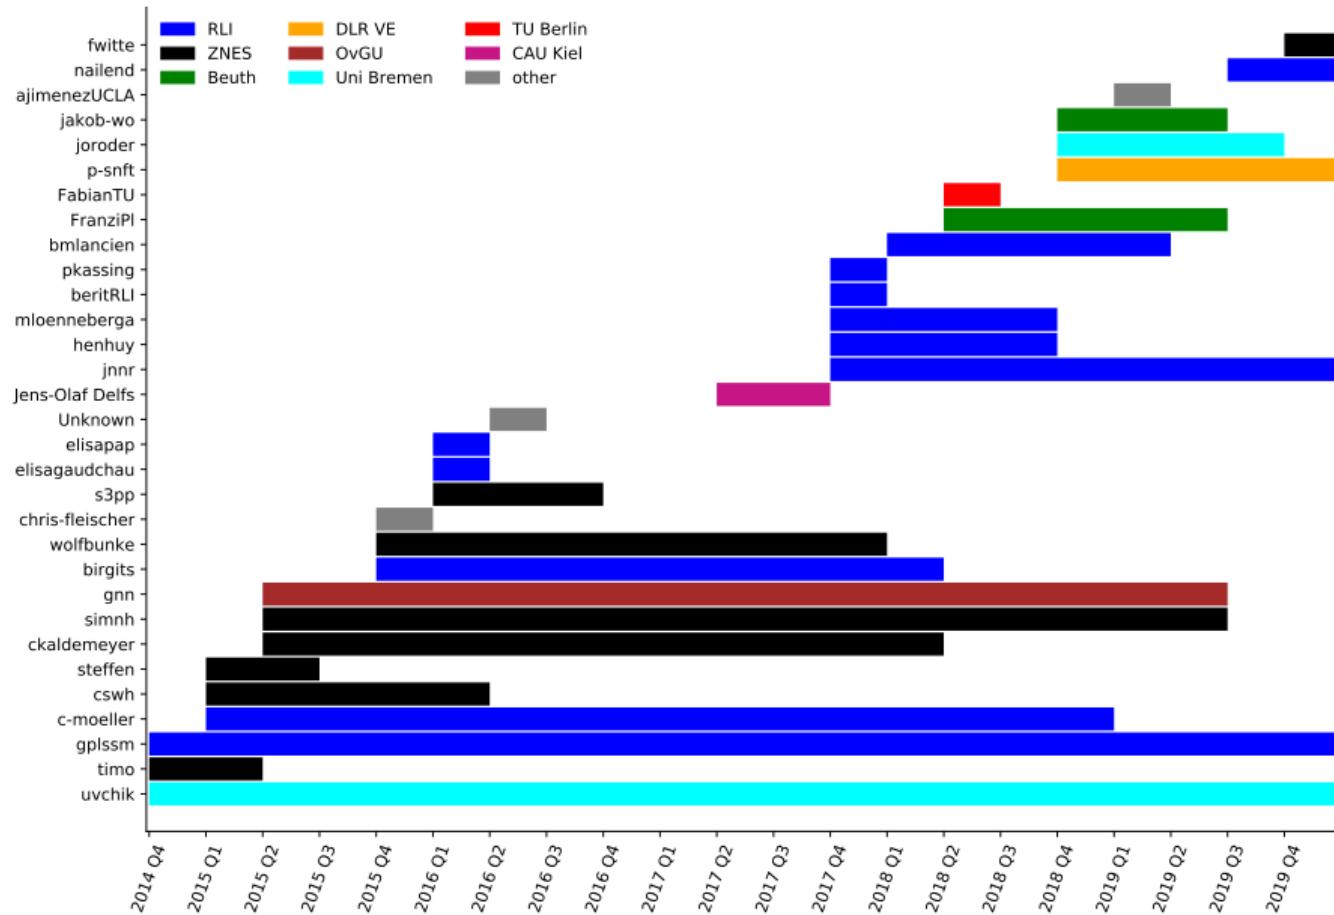

How many contributors committed to oemof's code base until now?

- ▶ A: 13
- ▶ B: 42
- ▶ C: 28
- ▶ D: 31

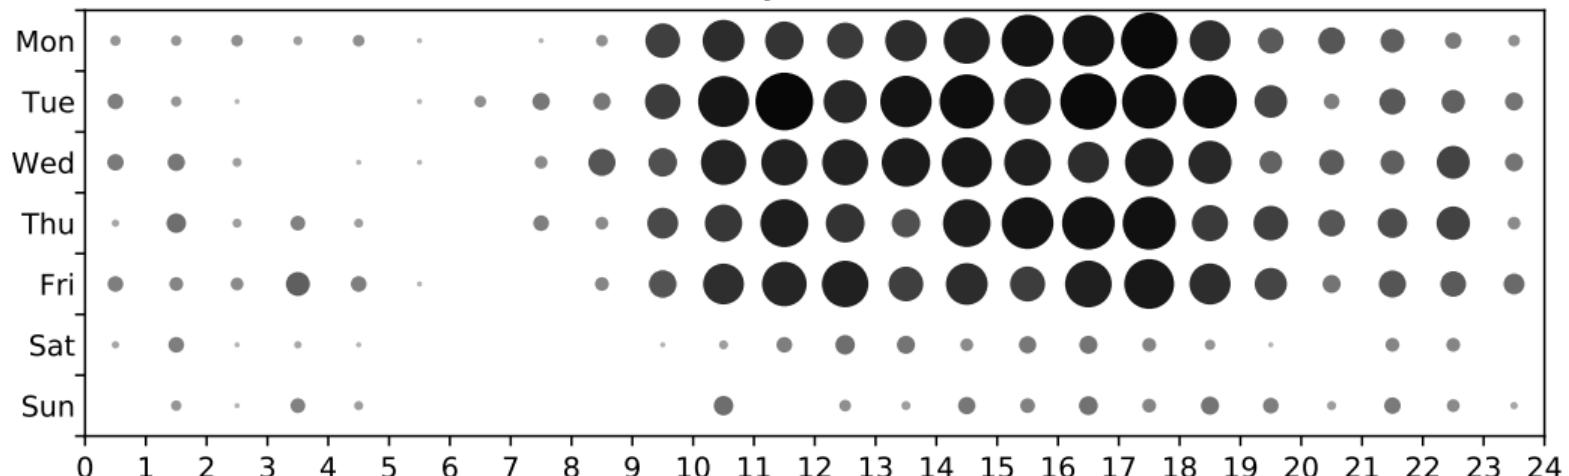

How many contributors committed to oemof's code base until now?

- ▶ A: 13
- ▶ B: 42
- ▶ C: 28
- ▶ D: **31**

More and more contributors joined over time

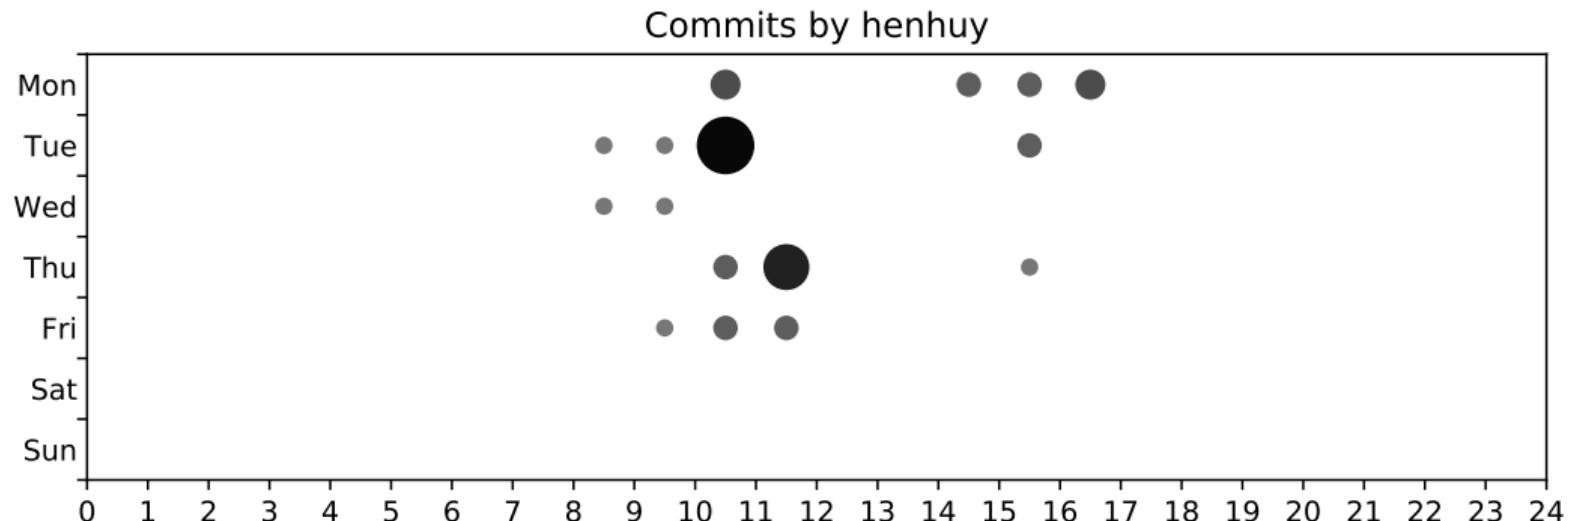

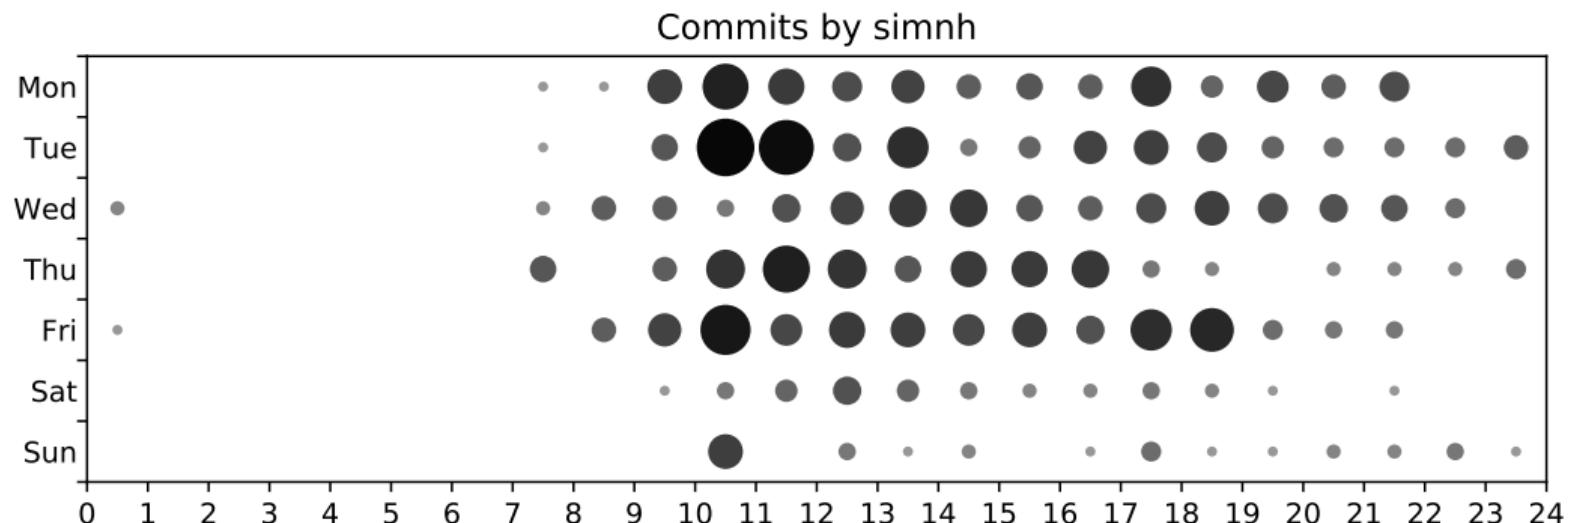

Commits by all contributors

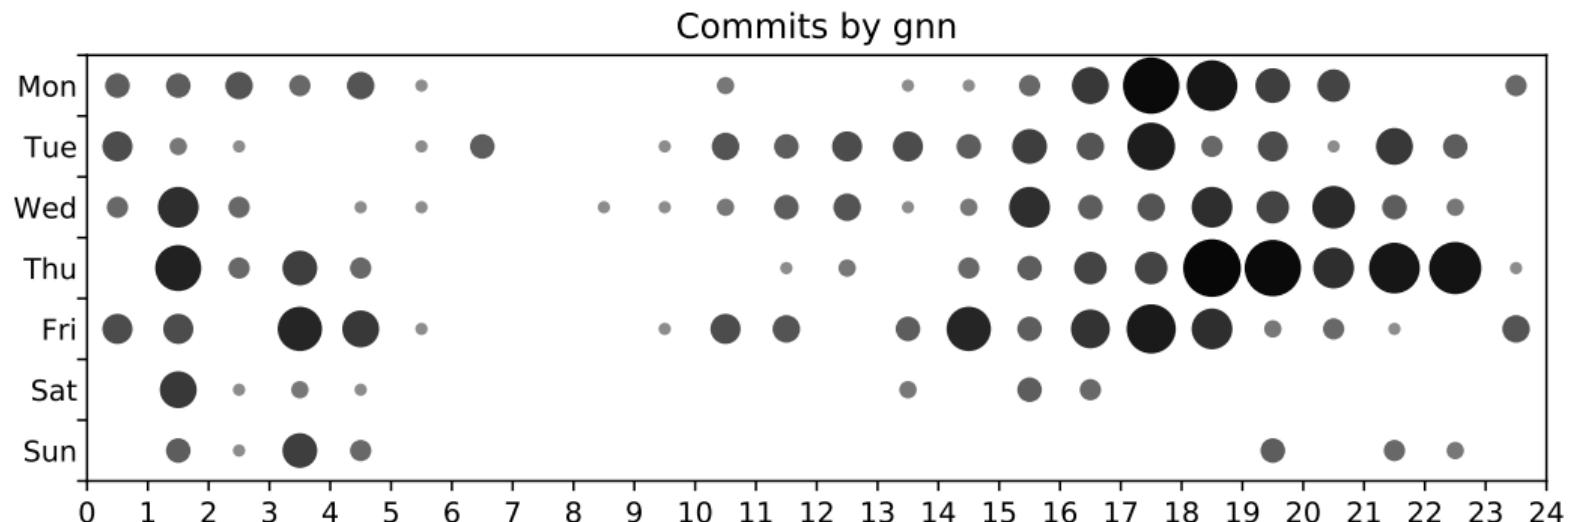

Who's working when?

9-to-5er

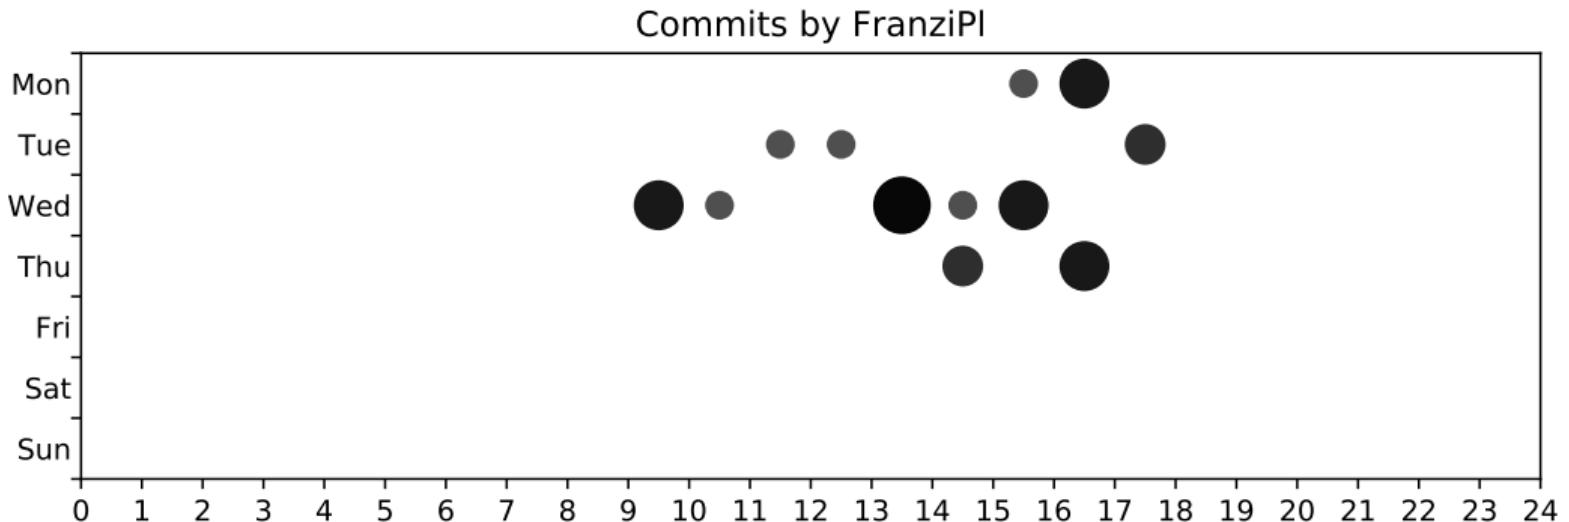

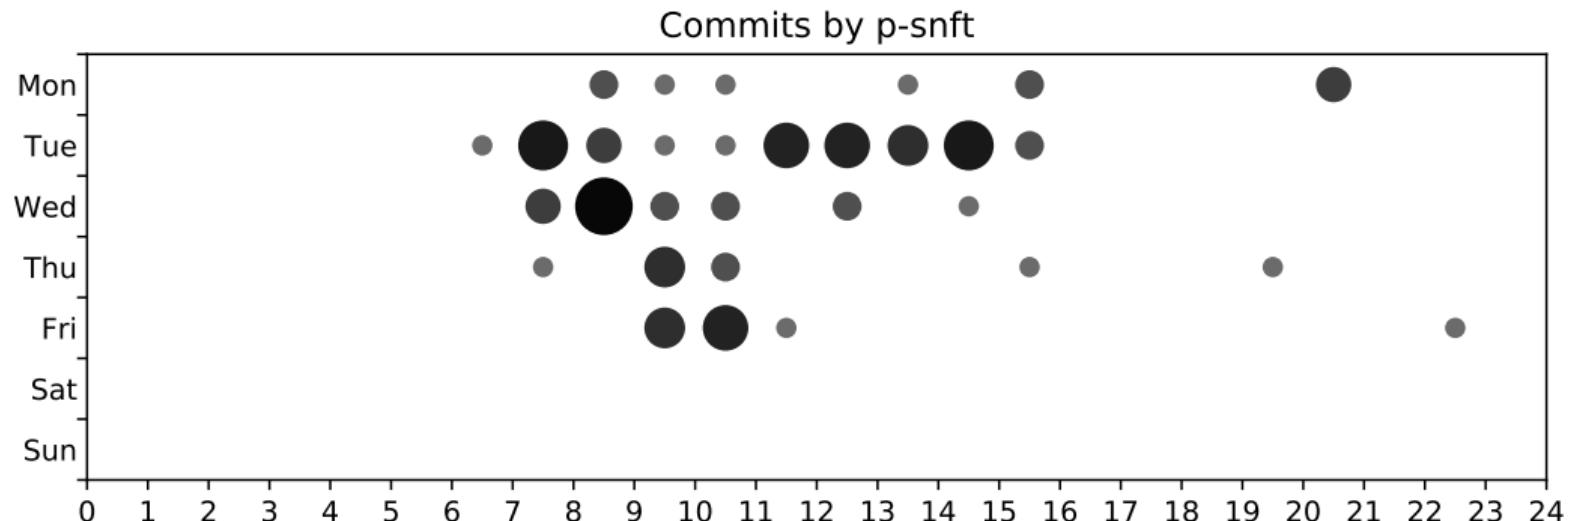

Late night hero

Not on Fridays

Earliest commit ever?

Off the working hours
